Quick Facts.

Experienced Full-Stack Developer with Strong Java, Microservices, and UI Skills

I'm a Java developer skilled in reactive architecture and microservices using Spring Boot. With experience in Angular, databases, testing, Kafka, and Native Cloud development, I'm well-versed in Agile/Scrum and CI/CD processes. I'm confident in my ability to contribute to any project, including Azure Data Factory for data integration solutions.

Relevant Experience

CREDIT SUISSE GROUP A.G. AND COGNIZANT | Sr. Full-Stack Solution Engineer
May 2019 – Current | Zurich, Switzerland

- → Skilled in full-stack development using Java 11 to 17, Spring5, Spring Boot MVC, and REST with expertise in writing unit and integration tests, and experience in reactive architecture and microservices using Spring Boot.
- → Proficient in Angular for UI development, data integration, and database management, with familiarity in Kafka and Native Cloud development. Worked in Agile/Scrum team environments, analyzing requirements, designing data models, and providing support throughout the development lifecycle.

UBS GROUP A.G. AND COGNIZANT | Sr. Software Developer
Jan 2018 – May 2019 | Zurich, Switzerland

- → Proficient in modern technologies such as Java 8, Apache Camel, Spring, and Hibernate, with expertise in reactive architecture and microservices using Spring Boot, and experience in data integration and relational databases.
- → Skilled in both front-end and back-end development and maintenance work, developing RESTful web services, writing unit and integration tests, automating testing through Cucumber BDD, and utilizing Agile/Scrum methodologies. Familiarity with Kafka and Native Cloud development.

EUROPEAN COMMISSION | Sr. Full-Stack Java/JEE Developer
June 2011 – December 2017 | Brussels, Belgium

- → Skilled in full-stack Java/J2EE web application development using Angular 2-4, Spring/Hibernate, and Oracle, with expertise in implementing JBPM workflows, unit and integration testing, and enhancing code quality.
- → Proficient in software release management, providing technical and functional support, and performing maintenance for e-procurement systems. Familiarity with technologies such as SVN, GIT, JBoss JBPM, UML, SOA, Eclipse, Mockito, WebLogic, Action Script, RequireJS, DHTML, CSS SASS, XML, XSLT, and XSD, and Agile/Scrum methodologies.

JOHNSON JOHNSON | Sr. Java/JEE Developer
Jul 2010 – Jun 2011 | Beerse, Belgium

- → Skilled in Java/JEE development with experience in Scrum, contributing to solution design, and conducting end-to-end testing.
- → Specializes in Healthcare and Well-being solutions, experienced in resolving bugs and proficient in technologies such as Spring, Hibernate, and Oracle DB.

NOKIA SIEMENS NETWORKS, VAN GENECHTEN PACKAGING, ROOMSNET.COM, ABSI.BE, UNION BANK OF COLOMBO LTD | Sr. Full-Stack Java/JEE Developer
May 2004 – July 2010 | Brussels, Belgium/ Colombo, Sri Lanka

Skills

PROGRAMMING

Proficient:
Java (8-11, 17), Shell, JavaScript (ES6), TypeScript, SQL, CSS, HTML, CSS/Sass, GraphQL, Python, R, PHP, Groovy, C++, Assembly

LIBRARIES/FRAMEWORKS

Spring (Boot, 5, MVC, Flux), React, Angular(7-8-14), React/Redux, GraphQL, Apache Camel, Hibernate, EJB, JBoss JBPM, Node.js

TOOLS/PLATFORMS

Git, Docker, Jenkins, Kubernetes, Maven, Oracle, IntelliJ IDEA, WebLogic, JIRA, Spring Cloud, Apache Kafka, Splunk, Grafana, OpenShift, Kubectl, Helm, Nexus, PL/SQL, Scrum, H2 DB, Liquibase, Apache POI, OC

Education

UNIVERSITY OF SRI J'PURA
BSc in Computer Science, Statistics, Mathematics
Oct 1999 - Feb 2003

UNIVERSITY OF COLOMBO
BIT,Unix/Linux Fundamentals, Networks Systems Administration
Oct 1999 - May 2004
Sun Java (SCJP, SCBCD, SCEA1, SCWCD)
